About us

Bangkok Food System Company Limited was established in 2010. In 2004, to strengthen the reliability of product production in Thailand, we have been exporting our products to 17 countries around the world since the beginning of our business until now.

In 2015, we formed a partnership with Allied Corporation, our parent company in Japan. Together, we established a business specializing in the import and distribution of vegetables and fruits from Japan. Our branches are strategically located in both Japan and Thailand. This strategic alliance has provided us with invaluable insights into the market, procurement, export processes, and cold chain management. Moreover, the collaboration with Allied Corporation has enabled us to cut costs and enhance our competitive edge.

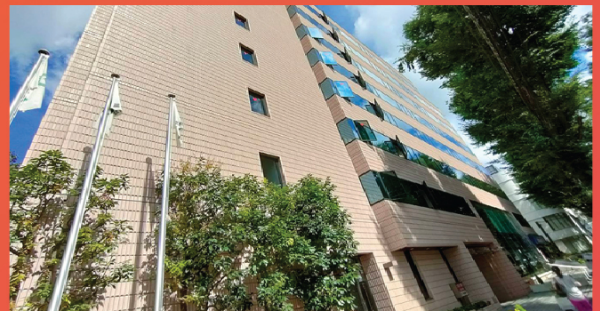

BANGKOK FOOD SYSTEM & ALLIED CORPORATION

Collaborating with Allied Corporation in Japan has led to cost reduction. Efficient management has fostered flexibility, ultimately enhancing our competitiveness.
