About us

Bangkok Food System Company Limited was established in 2010. In 2004, to strengthen the reliability of product production in Thailand, we have been exporting our products to 17 countries around the world since the beginning of our business until now.

In 2015, we formed a partnership with Allied Corporation, our parent company in Japan. Together, we established a business specializing in the import and distribution of vegetables and fruits from Japan. Our branches are strategically located in both Japan and Thailand. This strategic alliance has provided us with invaluable insights into the market, procurement, export processes, and cold chain management. Moreover, the collaboration with Allied Corporation has enabled us to cut costs and enhance our competitive edge.

BANGKOK FOOD SYSTEM & ALLIED CORPORATION

Collaborating with Allied Corporation in Japan has led to cost reduction. Efficient management has fostered flexibility, ultimately enhancing our competitiveness.

WHAT CAN WE DO FOR OEM PRODUCTS ?

We are not just a TRADER;

We can assemble products from our factory and control the quality of the products.

1. PRODUCT ASSEMBLY

- Sachet Products
- Bag Products
- Paper Cup Products
- Boxed Products

2. RAW MATERIALS PACKING

We use modern machinery to package ingredients like seasoning powder, dried vegetables, or sauce in envelopes ranging from 0.5g to various sizes, tailored to meet specific customer needs.

3. ASSEMBLY OF PACKAGING

We specialize in packing a variety of products (noodles, spring rolls) in bags, cups, and boxes. Our skilled production team ensures quality and compliance with international safety standards, guaranteeing customer satisfaction.

4. PALLET ARRANGEMENT

We're skilled in efficiently arranging and delivering products to key clients like Costco, ensuring the export of large volumes. Our expert placement team ensures accurate product arrangement based on customer needs.

OUR SUCCESS

Ready to Cook Meal Kit

Products that boost our customers' shopping pleasure, that motivate them to buy, "Something interesting" or "Something a little different"

Consumers find fresh meat and vegetables, and prepare them using small bags containing only a much of each hard-to-obtain seasoning and material as needed.

Tastes people formerly could only savor while traveling or in special restaurants can now be recreated in their own homes.
